

to whom it may concern, ther is one thing that i can't stand is that  
clearchannel stations have to go.i live in pa and i swear that no matter what  
station i have on in "fm" it smmems that repeat them over and over again and the  
commericals are somthing that i live without.anyway if we the people are willing  
to pay for this service than why do we need lobbyists telling me what i should  
or should not listen to.....
